NEWS OF THE DAY.

THE WAR.

-Throughout all the Border States the Rebels seem to be entering into a thorough system of guerrilla warfare, or rather highway robbery. Prowling over the country in bands of four to five hundred, they forage upon the loval citizens where there are any, and where there are none they feed upon their friends. They seize arms, steal horses, rob stores, and pick pockets in the name of Jeff. Davis, and promptly blow out the brains of any man who attempts resistance. The nearest that they approach to even Robel warfare is to lie in ambush and shoot our pickets. They cannot be easily subdued, since they keep clear of Union forces, and scatter like wolves at their approach. One thing is certain: They are outlaws and murderers by the code of every civilized nation; and the sooner they are treated to their own favorite "short shrift and long rope" cure, the better it will be for the country.

-The New-York Committee had an interview with the President yesterday. They were assured that the Government had arranged with the State so that everything would work harmoniously in the raising of men. The President strongly recommended enlistments in old regiments, remarking that one hundred thousand men thus placed would be worth the whole three bundred thousand in new organizations. He was also of the opinion that there would be no necessity for drafting to raise the new

GENERAL NEWS.

-The steamship Australasian, from Liverpool July 19, and Queenstown July 20, arrived here yesterday afternoon. Her news is three days later than that received by the Etna. An immense excitement was produced in Eng and by the report received by the Glasgow, that Gen. McClellan had capitulated. In the House of Commons, another interesting debate took place on July 18, on the propriety of offerng a mediation in the American war, but Lord Palnerston refused to commit the Government in any way, and the motion was withdrawn. The latest news received in France from Mexico was regarded as unfavorable, and the fands on the Bourse fell from no other apparent cause. In Germany, the idea of the National unity is making progress every day; and a great National Shooting Match, attended by about 12,000 riflemen, led by one of the German Princes, had created an unbounded enthu-

-The Postmaster-General and the Inland Revenue Commissioner have decided upon the stamps to be used as currency. They will be for 5, 10, 25, and 50 cents; on bank-note paper, neatly engraved; exchangeable in sums of \$5 or over for United States Legal Tender Notes, and in sums less than \$5 will be legal tender for all Government dues. They will be about one-fifth the size of the ordinary United excludes the Rhode Island battalion then in exist-States notes.

-Philadelphia ejects the nasty concert-saloous Mayor having ordered their extermination. By the way, one in this city, which was a few months ago absolutely hideous in its shameless licentiousness, still advertises its " pretty waiter-girls" in the old established organ of procuresses. Where is Superintendent Kennedy?

-In our summary yesterday we in-dvertently ascribed to the Hon. Reverdy Johnson the author-ship of an appeal to the Border States which was written by the Hon. Robert J. Walker.

-The French fleet has blockaded the Mexican orts of Tampico and Alvarado, and give notice that the blockade will be continued until the cessation of
